

User Acceptance Testing (UAT) Template

Date	29 JUNE 2026
Project Name	Metro Ticket Booking System
Maximum Marks	

Project Overview:

Project Name: Metro Ticket Booking System

Project Description:

The Metro Ticket Booking System is developed using ServiceNow to provide passengers with a secure and paperless ticket booking solution. The system allows users to select source and destination stations, calculates the fare automatically, generates a QR Code ticket, and stores booking details securely.

Project Version: Version 1.0

Testing Period: 1 June 2026 - 30 June 2026

Testing Scope:

- User Login
- Metro Ticket Booking
- Source Station Selection
- Destination Station Selection
- Automatic Fare Calculation
- QR Code Generation
- Ticket Booking
- Booking Record Storage
- Form Validation

Testing Environment:

URL/Location: ServiceNow Developer Instance

Credentials (if required): admin

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Login to ServiceNow	Enter username and password	User logs in successfully	Successfully logged in	Pass
TC-002	Book Metro Ticket	Enter passenger details and stations	Booking form accepts data	Booking completed	Pass
TC-003	Calculate Fare	Select source, destination and tickets	Fare is calculated automatically	Fare displayed correctly	Pass
TC-004	Generate QR Code	Complete booking details	QR Code is generated	QR displayed correctly	Pass
TC-005	Store Booking	Click Book Ticket	Booking saved in Metro Ticket table	Record created successfully	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Record created successfully	Fill form and generate QR	Medium	Closed	Issue fixed
BG-002	Fare not updating	Change ticket count	High	Closed	Client Script corrected
