

Full Stack Development with MERN

Project Documentation format

1. Introduction

· **Project Title: Metro Ticket Booking System**

· **Developed By :** Hanisha shaik

2. Project Overview

· **Purpose:** The Metro Ticket Booking System is a ServiceNow-based application that enables passengers to book metro tickets online. The application automatically calculates the ticket fare, generates a QR code for digital ticket verification, and stores booking details in a custom ServiceNow table.

Features:

- Online Metro Ticket Booking
- Automatic Fare Calculation
- Dynamic QR Code Generation
- Digital Ticket Management
- Booking Confirmation
- Secure Record Storage
- User-Friendly Interface

3. Architecture

User Interface

- ServiceNow UI Page (Jelly)
- HTML
- CSS
- JavaScript

Application Logic

- Client Script
- Script Include

- GlideAjax
- GlideRecord

Database

- ServiceNow Custom Table (u_metro_ticket_booking).

4. Setup Instructions

Prerequisites

- ServiceNow Personal Developer Instance (PDI)
- System Administrator Role
- Application Scope
- Modern Web Browser

Installation

1. Create a ServiceNow application.
2. Create the custom table (u_metro_ticket_booking).
3. Create the Service Catalog Item or UI Page.
4. Configure Client Scripts.
5. Create the Script Include.
6. Configure GlideAjax.
7. Test the application.

5. Project Structure

Frontend

- UI Page
- HTML
- CSS

- JavaScript
- Jelly

Backend

- Client Scripts
- Script Include
- GlideAjax
- GlideRecord

Database

- u_metro_ticket_booking

.

6. Running the Application

1. Log in to the ServiceNow instance.
2. Open the Metro Ticket Booking application.
3. Enter passenger details.
4. Calculate fare automatically.
5. Generate the QR code.
6. Click Book Ticket.
7. Verify the booking record in the custom table.

7. Application Components

- Custom Application
- Custom Table
- UI Page
- Client Script
- Script Include

- GlideAjax
- QR Code Generator
- Flow Designer (Optional)

8. Security

- Role-Based Access Control (ACL)
- Secure GlideRecord Operations
- Input Validation
- Authenticated User Access

9. User Interface

- ☐ Metro Ticket Booking Form
- ☐ Fare Calculation
- ☐ QR Code Generation
- ☐ Booking Confirmation
- ☐ Booking Records.

10. Testing

Functional Testing

- Ticket Booking
- Fare Calculation
- QR Code Generation
- Database Record Creation

Performance Testing

- Response Time
- Booking Speed
- QR Generation Time

.

11. Screenshots / Demo

- **Booking Form**

The screenshot shows the 'Book A Metro Ticket' form in the ServiceNow interface. The form includes the following fields and components:

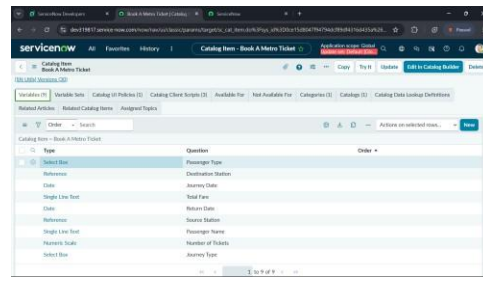

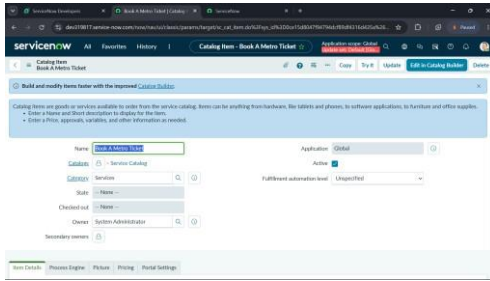

- Passenger Type:** A dropdown menu with 'Adult' selected.
- Destination Station:** A text input field with a search icon.
- Journey Date:** A date picker field.
- Total Fare:** A light blue bar representing the fare amount.
- Return Date:** A date picker field with a red asterisk indicating it is required.
- Source Station:** A text input field with a search icon.
- Passenger Name:** A text input field.
- Order this Item:** A section on the right with a 'Quantity' dropdown set to '1' and a 'Delivery time' of '0 Days'.
- Order Now:** A blue button.
- Add to Cart:** A button.
- Shopping Cart:** A section showing 'Empty'.

- **QR Code**

The screenshot shows the 'Metro Ticket QR Code' page in the ServiceNow interface. The page displays the following information:

- Destination Station:** A dropdown menu with 'Select' chosen.
- Journey Date:** A date input field showing 'dd-mm-yyyy'.
- Passenger Type:** A dropdown menu with 'Adult' selected.
- No. of Tickets:** A text input field with the value '1'.
- Total Fare:** A text input field with the value '50'.
- Metro Ticket QR Code:** A large QR code displayed below the form fields.

- **Service Catalog**

• UI Page

12. Known Issues

- Requires an active internet connection.
- QR code library must be available.
- Depends on ServiceNow instance availability.

13. Future Enhancements

- Online Payment Gateway Integration
- Email and SMS Notifications
- Mobile Application Support
- Metro Smart Card Recharge
- Live Metro Timetable
- Booking History Dashboard
- Multi-Language Support
- QR Code Validation at Metro Entry Gates
